

## AACII AEROSPACE MOBILITY NEWS SEPTEMBER 2021

### AVIATION

One of the largest existing aviation museums is located in Cairo and presents the most important objects from the field of aviation.

Director Fouad welcomes AACII representative Mohammed Omar and Sonja Fraas.

### SPACE

**On a space trip: The Space Expo in Noordwijk near Leiden and Amsterdam:** Space Museum in Noordwijk and the ESA ESTEC visitor center. The museum just behind the sea and the dunes. In the exhibition you get to know space travel in all its facets. You see an astronaut eat, sleep and live. One of the showpieces of the museum is the original Soyuz capsule in which the Dutch astronaut André Kuipers traveled.

### CONGRESS PREPARATION

During a visit to Prague, Ulrike Trapp from TRAPP NETWORKS met with Director Dr Peter Tomasek from Aerospace Czech Republic. The details of the Czech participation in the AACII congress in the Nuremberg exhibition center in the coming year were discussed. Mr Bernd Bauer from the AHK Prague referred to the dual training and the good transport infrastructure as important connections between the two countries.

## MOBILITY

"What will move us next?" - Under this motto, experts discussed the mobility of the future at the international trade fair IAA MOBILITY in Munich. The professional world was amazed at the response to the presentations at TRUSTED.AUTOMOTIVE.INDUSTRIES. Josef Stakemeier, the former head of strategic sales at the Bavarian metal and electrical employers, now management of Excellent.Partners, sees this as a breakthrough for the establishment of "newmobility.rocks"!
